

RACHIT SINGHI

PRODUCT DESIGNER

UX designer and researcher with 2 years of experience delivering 5 B2B and B2C products across enterprise dashboards, AI tools, and educational platforms, translating mixed-method research into user-validated, high-fidelity interfaces.

EXPERIENCE

UX/UI Designer · BRND Studio

March 2024 – June 2025

- ▶ Delivered 5 complete product designs on schedule across B2B and B2C contexts, partnering with 3 cross-functional engineering and product management teams.
- ▶ Conducted 12+ moderated usability testing sessions across 4 product launches, generating prioritized insight reports that shaped 10+ design iterations before release for each.
- ▶ Architected information structures for an enterprise dashboard serving 200+ internal users, reducing navigation depth by 2 levels and streamlining core task flows.
- ▶ Built a Figma component library with 80+ reusable UI elements, cutting cross-team handoff time by 3 weeks per project cycle.
- ▶ Shaped AI chatbot creation models through 8 structured research sessions, informing conversational UX patterns across 3 distinct user segments.

Product Design Intern · Grant Thornton Bharat

January 2023 – July 2023

- ▶ Mapped 6 end-to-end user journey flows for artisan-facing products, surfacing 9 friction points that directed a new product line strategy.
- ▶ Facilitated 4 co-design workshops with 25 artisans, translating field insights into 3 commercially viable concepts for market entry.
- ▶ Framed competitive analysis across 12 market players, identifying 2 differentiated positioning opportunities adopted in the product roadmap.
- ▶ Synthesized 30+ hours of ethnographic field observations into a structured design brief that guided leadership decisions on 2 product initiatives.

Design Intern · Pichkaari Design Studio

June 2022 – August 2022

- ▶ Redesigned responsive interaction flows for 2 cross-platform products, removing 2 friction stages from core user pathways.
- ▶ Led 20+ stakeholder focus groups across 4 client engagements, aligning executive priorities with user-centered goals.
- ▶ Produced mid-fidelity prototypes for a ridesharing platform with 100M+ users, presenting 3 brand identity directions to senior leadership.
- ▶ Orchestrated a gamified design thinking workshop for 50+ participants, raising post-session team alignment scores by 1.4x.

Research Scholar Intern · Thinkonomers (HDL)

May 2021 – June 2021

- ▶ Administered 25+ in-depth user interviews and contextual observations, documenting findings across 5 behavioral insight themes.
- ▶ Converted qualitative behavioral data into 3 actionable design recommendations integrated into stakeholder decision-making presentations.

AI-ASSISTED PROJECTS

Twinkle – Custom Constellation Creator

- ▶ A vibecoded full-stack creative web tool built with Lovable and Cursor AI, rendering 8,834 real NASA catalog stars as a live interactive sky map with AI-powered constellation naming, Google MediaPipe finger-tracking, and mobile AR sky overlay ([twinkle.ltd](https://www.twinkle.ltd)).

InTrack – Non-Invasive Nutrition Tracking

- ▶ Vibe-coded a fully interactive wearable health prototype through Claude Code during the ZeroToOne Hackathon, enabling real-time tracking of six nutrient biomarkers across a 9-screen onboarding flow, 5-tab app architecture, AI food-ordering conversations, and teleconsultation booking.

EDUCATION

MS Human Centered Design & Engineering

University of Washington

Seattle · Expected 2027

B.Des Industrial Design · National Institute of Design

Madhya Pradesh · 2023

Academic Excellence Award

SKILLS

Design

Information Architecture · UX Writing

Interaction Design · Visual Design

Prototyping · Design Systems

User Journey Mapping · Design Sprints

Research

UX Research · Usability Testing

Ethnographic Research · A/B Testing

Benchmarking · Survey Design

Foundational Research

Tools

Figma · Sketch · Adobe Creative Suite

Blender · AutoCAD · Rhinoceros 3D

Cursor AI · Claude Code · Loveable

AWARDS & PUBLICATIONS

Approved Utility Patent

National Research Development Corporation ·

September 2024

Granted for a table loom weaving tool, reducing student errors during the learning process.

ICoRD Publication – Responsible & Resilient Design for Society, Vol. 11

International Conference on Research into

Design · October 2025

Examined touch's effect on self-identity, uncovering social biases and informing a child-focused workshop kit.

D'Source Design Challenge

IDC School of Design, IIT · Jun 2020

Developed a board game communicating COVID-19 systems and cooperative response strategies to general audiences.
